

The Chairman of FASD Enver Bakiođlu explained the target of the flexible packaging industry in an interview that published on the May 2014 issue of magazine of Plastik Ambalaj Teknolojisi:“To be a production base of flexible packaging industry of Europe in 2020” and said “I would like to say proudly, that the industry of flexible packaging achieved successes of significant export in line with this target”.

In this context, Bakiođlu, noted that attach importance to PACK-IST which is the only specialist fair of industry “In the coming years with the introduction of comprehensive of PACK-IST, especially for European, African and Middle Eastern food manufacturers we aim to become an attractive exhibition to be visited extensively. Certainly this is directly related to the participant and visitor profile of exhibition. Therefore, we would have invited all sector components to take part in this exhibition. If manufacturers and suppliers take place in an intensive in this exhibition customers will also show the same density interest in exhibition. Our efforts in this area we aim to pass all PACK-IST's are more successful than the previous one. This year the FPE “Flexible Packaging Europe” visits the PACK-IST as a managing director level is a nice improvement from this perspective.”
